

Lunea Product Factsheet

Lunea is a modular seating system created for contemporary architectural planning.

Built on a system scaled every 10 cm, Lunea allows architects and designers to create cleaner layouts, stronger symmetry and more efficient use of space across a wide variety of interiors. The collection combines the flexibility of a tailored solution with the simplicity and scalability of a standardised platform making specification work faster, more intuitive and easier to adapt across projects.

Lunea naturally supports a broad range of environments, from workplaces and collaborative lounges to universities and hospitality-inspired interiors. Its modular logic enables multiple spatial configurations, from compact corner arrangements to large open-plan compositions, all within one coherent visual language.

Integrated tables, power access options and scalable layouts allow the system to evolve alongside changing workplace needs and project requirements.

Lunea collection

LUNEA. Designed to scale. Built to feel light.

Originally developed within the Flokk Group as a successful platform for the American brand Stylex, Lunea has been carefully refined and adapted for the European market.

Scaled every 10 cm, it enables cleaner layouts, stronger symmetry and efficient use of space across workplaces, lounges and hospitality-inspired interiors. Integrated tables, power access and flexible configurations allow the system to adapt to changing project needs. Certified to Möbelfakta, Lunea combines durability, flexibility and a calm architectural presence.

Features:

- Modular seating system designed for architectural planning across workplace, hospitality and public interiors.
- Scaled from +10 cm to +80 cm in 10 cm increments to support cleaner layouts, stronger symmetry and more efficient space planning.
- Raised on slender powder-coated metal legs, giving the system a visually lighter and more architectural appearance than traditional modular seating.
- Rounded geometry creates a softer, more welcoming atmosphere.
- Flexible configurations ranging from compact corner layouts to large open-plan arrangements all within one coherent visual language.
- Integrated accessories include LN78 tables, tablet arms, Mediaport power access and planter modules.
- Back-to-back configurations allow efficient zoning in open environments.
- Dual upholstery option allowing different colours of the same fabric on the seat and backrest.
- Originally developed for Stylex (Flokk Group, USA) — a proven modular platform refined for the European market.

Quality

Profim provides a 5-year warranty for products used 8 hours a day, 5 days a week (single shift operation).

Technical data

Sofas:

- Cast aluminium leg. Height: 306 mm.
- Legs available powder-coated or polished aluminium.
- Triangular cross-section profile, 27 mm thick.

Planters:

- Available in Natural Veneers and HPL
- Plastic pot / insert included

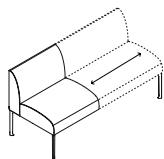

Tables:

- Powder-coated metal frame.
- Can be installed in the middle of the seat.
- With optional mediaport.

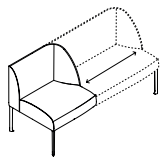

Glides (set, adjustable):

- Teflon — universal (standard).
- Felt — for hard floors.
