Trillo Pro 20ST

Flokk Holding AS - Profim

www.epd-norge.no

General information

Product:

Trillo Pro 20ST

Owner of the declaration:

Flokk Holding AS - Profim Contact person: Damian Bakowski Phone: +48 785 124 085 e-mail: damian.bakowski@flokk.com

Manufacturer:

Flokk Holding AS - Profim

Program operator:

The Norwegian EPD Foundation Pb. 5250 Majorstuen, 0303 Oslo Phone: +47 23 08 80 00 e-mail: post@epd-norge.no

Declaration number:

NEPD-2844-1536-EN

ECO Platform reference number:

Flokk Holding AS - Profim ul. Górnicza 8 62-700 Turek Poland

Management system:

Place of production:

ISO 9001:2015, registration number 069780 QM15 ISO 14001:2015, registration number 069780 UM15

Organisation no:

PL6680000366

Issue date: 28.05.2021

Valid to: 28.05.2026

This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A1:2013 serves as core PCR NPCR 026:2018 Part B for furniture

Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

Declared unit:

1 kg Trillo Pro 20ST

Declared unit with option:

A1,A2,A3,A4

Year of study:

Comparability:

EPDs from programmes other than the Norwegian EPD Foundation may not be comparable

Functional unit:

Development and verification of EPD:

The declaration has been developed and verified using EPD tool lca.tools ver EPD2020.11, developed by LCA.no AS. The EPD tool is integrated into the company's environmental management system, and has been approved by EPD-Norway

Developer of EPD:

Damian Bakowski - demo

Reviewer of company-specific input data and EPD:

Arleta Derdziak

Approved:

Verification of EPD tool:

Independent third party verification of the EPD tool, background data and test-EPD in accordance with EPDNorway's procedures and guidelines for verification and approval of EPD tools.

General information on verification of EPD from EPD tools:

Independent verification of data, other environmental information and the declaration according to ISO 14025:2010, § 8.1.3 and § 8.1.4. Individual

the proccess is reviewed annualy. See Appendix G of EPD-Norway's General Programme Instructions for further information on EPD tools.

third party verification of each EPD is not required when the EPD tool is i) integrated into the company's environmental management system, ii) the procedures for use of the EPD tool are approved by EPDNorway, and iii)

Erik Svanes, Norsus AS

LCA: Calculation rules

Declared unit:

1 kg Trillo Pro 20ST

Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included. These cut-off criteria do not apply for hazardous materials and substances.

Allocation:

The allocation is made in accordance with the provisions of EN 15804. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

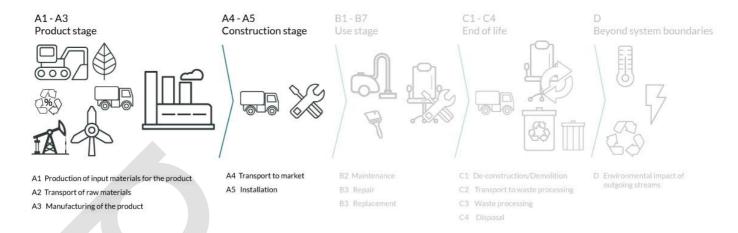

Data quality:

Specific data for the product composition are provided by the manufacturer. They represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on registered EPDs according to EN 15804, Ostfold Research databases, ecoinvent and other LCA databases. The data quality of the raw materials in A1 is presented in the table below.

| Materials | Source | Data quality | Year |
|---|--------------------------|--------------|------|
| Plastic - Polyoxymethylene (POM) | ecoinvent 3.4 | Database | 2015 |
| Plastic - Polypropylene (PP) | ecoinvent 3.4 | Database | 2015 |

| Plastic - Polyester | ecoinvent 3.6 | Database | 2019 |

System boundary:

Additional technical information:

Mechanism - Synchronous mechanism SELF (self-weigh) with the possibility of locking in two positions(basic and maximum reclined).

ST version - with height adjustment function.

5-star base - polyamide (colour black, grey RAL 7043 and light grey 7047)

Armrests - Fixed armrests.

Gas lift - Gas lift with additional cushion for a better sitting comfort.

Castors - Castors hard or soft, with a brake. Backrest - Plastic backrest made of polyamide (PA with fiberglass).

Seat - plastic structure covered with polyurethane foam with a density of 70 kg / m3.

The following information describe the scenarios in the different modules of the EPD.

*INA Indicator Not Assessed

Additional Norwegian requirements

Greenhouse gas emissions from the use of electricity in the manufacturing phase

National production mix from import, low voltage (production of transmission lines, in addition to direct emissions and losses in grid) of applied electricity for the manufacturing process (A3).

Dangerous substances

The product contains no substances given by the REACH Candidate list or the Norwegian priority list.

Indoor environment

Additional environmental information
